This latest edition to Dave Lauck's tactical series of books evaluates cutting-edge tactics and equipment in the tactical shooting field for either close-quarters combat or precision standoff duty. It includes thorough chapters on handling and shooting techniques, marksmanship, maintenance and accessories, but what truly sets this book apart from other manuals are its sections that will help you to advance your carbine skills for all sorts of military, law-enforcement and self-defense scenarios; maintain your mental focus in tactical situations; determine which modifications will make your firearm perform better; select the proper tactical carbine ammunition for specific missions; and understand the pros and cons of using suppressors.
