Climate Risks in the Mekong Delta: Ca Mau and Kien Giang Provinces of Viet Nam

Climate Risks in the Mekong Delta: Ca Mau and Kien Giang Provinces of Viet Nam

This report presents the outputs of the Climate Change Impact and Adaptation Study in the Mekong Delta. The study focuses on vulnerability assessment of two provinces in the Mekong Delta region: Ca Mau and Kien Giang. Using climate change modeling, socioeconomic data, geographic information system analysis, and expert opinion, the study identifies future climate conditions and assesses the effects of future climate scenarios on the natural, social, and economic systems of each district of Ca Mau and Kien Giang provinces. It provides province and district policy makers with an understanding of the key areas of vulnerability and risk hot spots with regard to climate change up to 2050. It provides practical measures that provincial and district administrations can take to inform and strengthen their climate change adaptation programs.
