Improving Teaching And Learning In Higher Education: A Whole Institution Approach (Society for Research into Higher Education) Vaneeta D'Andrea

By placing learning at the centre of organizational change, this book challenges many of the current assumptions about management of teaching, supporting students, the separation of research and teaching, the use of information technology and quality systems. It demonstrates how trust can be restored within higher education while advancing the need for change based on principles of equity and academic values for students and teachers alike.
