Britain in 2011 is in the grip of debt hysteria. If the current coalition government is going to be remembered for one thing it is the cuts: the most severe that this country has seen for decades. Cuts to university funding, libraries and public sector workplaces have seen the most high profile resistance, with the type of protest on the streets not seen since the Poll Tax riots and the Thatcher years.

In this ebook, Mehdi Hasan exposes ten myths about the debt, deficits and spending cuts, and asks if this programme of austerity is really necessary or whether it is actually an economic strategy with its roots in an ideology that extends much further back in time than the global economic collapse of 2008.

BRAIN SHOTS is the pre-eminent source for high quality, short-form digital non-fiction. The *Summer of Unrest* series brings together stellar writers to explore the issues surrounding the austerity measures in the UK, uprisings in the Middle East and the nature of the protest movements springing up all over the world.
