Atlas of Instruments in Otolaryngology, Head and Neck Surgery K Vikram Bhat, D Manjunath

This book Atlas of Instruments in Otolaryngology, Head and Neck Surgery made a sincere attempt to include more than 350 color illustrations of instruments that can be considered important from the point of view of the postgraduate students and the practitioners. The book does not contain each and every instrument that is present in the specialty of otorhinolaryngology. There are special tips for the students to remember the names of instruments in the form of tables and list of common scientists. Help a student in the easy understanding of surgical procedures. List of the instruments for individual ENT surgeries is provided that makes easy the purchase of the required instruments for a particular surgery. Also to cross check the instruments required prior to surgery by the operation theatre staff and junior practitioners. Another special feature of this book is that the photographs of instruments have been presented with their tips wherever necessary, for proper identification and grasping. Brief relevant history of certain instruments is included for the benefit of exam-going postgraduate students. This book comes to your help the next time you pick-up an instrument. This useful book which will be very good guide to the undergraduate students, postgraduate students, practicing ENT surgeons and operation theatre staff.
