Doctor Who and Philosophy: Bigger on the Inside (Popular Culture and Philosophy Book 55)

Courtland Lewis, Paula Smithka

Not only is *Doctor Who* the longest-running science fiction TV show in history, but it has also been translated into numerous languages, broadcast around the world, and referred to as the “way of the future” by some British politicians. The Classic *Doctor Who* series built up a loyal American cult following, with regular conventions and other activities. The new series, relaunched in 2005, has emerged from culthood into mass awareness, with a steadily growing viewership and major sales of DVDs. The current series, featuring the Eleventh Doctor, Matt Smith, is breaking all earlier records, in both the UK and the US.

Doctor Who is a continuing story about the adventures of a mysterious alien known as “the Doctor,” a traveller of both time and space whose spacecraft is the TARDIS (Time and Relative Dimensions in Space), which from the outside looks like a British police telephone box of the 1950s. The TARDIS is “bigger on the inside than on the outside”—actually the interior is immense. The Doctor looks human, but has two hearts, and a knowledge of all languages in the universe. Periodically, when the show changes the leading actor, the Doctor “regenerates.”
