At the heart of Codename Xenophon is the Greek nation: its history, culture and current predicament. We see a dysfunctional society through the eyes of George Zafiris, an Athens based private investigator. A thoughtful loner, he is forced to probe the heart of a failing society as he investigates a series of crimes the police show no interest in solving. A distinguished professor of ancient history is shot dead. Then a politician dies in mysterious circumstances and a journalist is murdered. George Zafiris has to find out if these deaths are connected. A gang of Georgian thugs may know the answer. Leo Kanaris has written a thoughtful crime mystery and has created a private investigator the Greek nation can be proud of. 'Set in Athens in 2010, Kanaris's impressive debut, the first in a projected quartet, effectively evokes Greece's noble antiquity while portraying its current financial crisis, which his hero, PI George Zafiris, attributes to former prime minister Papandreou, who created the "most bloated, obstructive bureaucracy on the planet." Zafiris, scraping by from case to case, aching from the infidelity of a wife he still loves, and at every step hamstrung by corrupt and arrogant police, investigates the shooting of a Greek scholar and confronts a Gordian knot of governmental corruption, adulterous relationships, and vicious criminals. Struggling to preserve his self-respect, Zafiris prevails—almost. Disgusted by those whose respect for Greece's past leads them to avoid present-day responsibilities, Zafiris worries constantly over his country and its future, but he survives through fitful glimpses of the spirit that gave birth to Western civilization, still strong after 2,500 years.'
