*Two-Part Inventions* begins when Suzanne, a concert pianist, dies suddenly of a stroke in the New York City apartment she shares with her producer husband Philip. Rather than mourn in peace, Philip becomes deeply paranoid: their life is based on a fraud and the acclaimed music the couple created is about to be exposed. Philip had built a career for his wife by altering her recordings, taking a portion of a song here and there, from recordings of other pianists. Syncing the alterations seamlessly, he created a piece of flawless music with Suzanne getting sole credit.

In this urban, psychological novel, author Lynne Sharon Schwartz brilliantly guides the reader through a flawed marriage and calculated career. Beginning with Suzanne's death and moving backwards in time, Schwartz examines their life together, and her remarkable career, while contemplating the nature of truth, marriage and the pursuit of perfection.
