Group Work in the Primary Classroom

Maurice Galton, John Williamson

Group Work in the Primary Classroom Maurice Galton, John Williamson

Drawing on the work of Vygotsky, the authors look at the social and emotional advantages children can gain from working together. They use case studies derived from the ORACLE II group work project at Leicester, and also take into account the advances made in collaborative group work in other countries. The result is a set of guidelines from which teachers can plan policies suitable for their own schools.
