## **Orgasmology (Next wave)** Annamarie Jagose

For all its vaunted attention to sexuality, queer theory has had relatively little to say about sex, the material and psychic practices through which erotic gratification is sought. In *Orgasmology*, Annamarie Jagose takes orgasm as her queer scholarly object. From simultaneous to fake orgasms, from medical imaging to pornographic visualization, from impersonal sexual publics to domestic erotic intimacies, Jagose traces the career of orgasm across the twentieth century.

Along the way, she examines marriage manuals of the 1920s and 1930s, designed to teach heterosexual couples how to achieve simultaneous orgasms; provides a queer reading of behavioral modification practices of the 1960s and 1970s, aimed at transforming gay men into heterosexuals; and demonstrates how representations of orgasm have shaped ideas about sexuality and sexual identity.

A confident and often counterintuitive engagement with feminist and queer traditions of critical thought, *Orgasmology* affords fresh perspectives on not just sex, sexual orientation, and histories of sexuality, but also agency, ethics, intimacy, modernity, selfhood, and sociality. As modern subjects, we presume we already know everything there is to know about orgasm. This elegantly argued book suggests that orgasm still has plenty to teach us.
