Bernard Law Montgomery was a dedicated battlefield tactician, though a controversial one. In North Africa in 1942, he commanded the Eighth Army to a great triumph against Rommel at El Alamein, which Churchill hailed as the beginning of the end of the war. During the planning stages for the invasion of Sicily, Montgomery proved himself to be a splendid organizer and a great believer in simplicity. But he was also known as a complicated man whose legacy remains tainted by his insensitive and boastful nature and desire for personal glory—all of which can have dangerous consequences on the battlefield. In the end, though, it was only due to Montgomery's influence that the weight of the Allied attack at Normandy was increased, and the Allied success of D-Day owes much to his far-sightedness. In the field, especially during the planning stages, he was at his best. An inspirational commander whose self-confidence was legendary, Montgomery's military life has proved to be a great lesson for leaders in the years since.
