Conceived as a visual record rather than a definitive history, *The Steel Wedge* is a substantial photographic archive—246 photos, many never before published—focused on the coming of age of U.S. Marine Corps tanks, tank destroyers, and armored amphibian tractors through the Pacific island-hopping campaign from earliest pre-war development to Okinawa in 1945.

A slice of the Marine Corps experience in the Pacific Theater during World War II, *The Steel Wedge* employs explanatory captions and narrative text to supplement its large and broad array of combat photographs. It is the first book ever to focus mainly upon this outstanding photographic record.
