Creative Participation: Responsibility-Taking in the Political World Michele Micheletti, Andrew S. McFarland

Creative Participation presents the theory and practice of new innovative forms of political participation. Examples covered in the book include consumers engaging in political shopping, capitalists building green developments, UK Muslim youth campaigning on the internet, Sicilian housewives taking on the Mafia, young evangelical ministers becoming concerned with social change and vegetarians making political statements. The authors show how in these new campaigns individuals swarm like honeybees around particular issues, causing those in power to sit up and take notice. This is the essential guide to the new politics of participation.
